## Delaware Valley Section

American Institute of Chemical Engineers (AIChE) Delaware Valley Section Local Event

***"Veolia Schuylkill Station Plant Tour"***

**Date: September 15, 2016 (Thursday)**

Veolia is a French transnational company with activities in three main service and utility areas traditionally managed by public authorities – water management, waste management, and energy services.

Using efficient combined heat and power technology at Schuylkill Station, Veolia's district energy system is primarily powered by cogenerated "Green Steam", fueled entirely by clean-burning natural gas. "Green Steam" is a sustainable and efficient energy solution that recycles thermal energy by recapturing waste heat.

- 
- Date:** September 15, 2016 (Thu); Registration Deadline September 12, 2016 (Mon)  
**Time:** 3:00 PM – Registration, networking, food and beverages
