**Philadelphia, PA**

## STATEMENT

The Engineering profession faces many challenges. Leaders from within the engineering community need to address challenges by developing vision and strategies, aligning people relevant to those strategies, and empowering individuals to make the vision happen. The Delaware Valley professional engineering societies have the relevant people to impact the challenges that face us.

As a professional engineer, I see the challenge of rapidly adapting our current practice to embrace the future needs of the greater Delaware Valley community. The opportunities presented by developing technology need to be solidly linked with the needs of business and industry. Our future engineering practice is intrinsically linked with our experience and education.

With colleagues demonstrating equipment.

Professionally, my commitment is to promote excellence in engineering and

continue to nurture the development of the engineering practice to address the **challenges** our community faces today and tomorrow.

## PROFESSIONAL SERVICE

*American Institute of Chemical Engineers* (AIChE): Board Member/Director Delaware Valley Section (1990 – present); National Meeting, General Arrangement Committee (GAC) – Chair Sub-committee for industrial tours Nov 2008; Member (1969 to present).

Chemical Consultants Network, Charter Member.

Member of Representatives Council for Peerless Pumps and Magnetex.

Pumps & Processes Magazine, Contributing Author. (2001-2003)

Pumps & Systems Magazine, Contributing Author (1998 – 2000)

"Key Centrifugal Pump Parameters and How They Impact Your Applications - Part 2," *Pumps & Systems*, October 2000. Doug Kriebel.

“Key Centrifugal Pump Parameters and How They Impact Your Applications” Part 1 Pumps and Systems: They Go Together, Doug Kriebel, PE, Kriebel Engineered Equipment

Chemical Heritage Foundation Membership Committee person, Philadelphia (2007-present).

National Society of Professional Engineers Member (1990-1995)

International Society of Pharmaceutical Engineers (ISPE), Member.

The Union League of Philadelphia, Member.

---

Receiving the “Decade Long Service Award” from AIChE/DVS at a ceremony at the Union League in Philadelphia January 2005.
